

Farina di Grano Saraceno

Farina naturalmente senza glutine

Balanced and rich in essential amino acids, **Farina di Grano Saraceno** Nutrifree has a high nutritional value: its proteins are comparable to those of meat and soy.

This flour can be mixed with other naturally gluten-free flours for the preparation of rustic pies, breads and its derivatives, to which it will confer a flavour similar to that of wholemeal bread.

Tips: It has a high protein content and low baking potential. Its high fibre content prevents the dough's development if used in large quantities. It confers a rustic flavour to doughs, this is why we recommend using it in reduced quantities in mixes with other flours.

- Naturally lactose free
- Great to mix with other flours
- Ideal to prepare rustic pies or bakery products
